

Use Instruction for Hunt interactive map: Select the “City Limits” section in the “Map Contents” section on the right-hand side of the page. Find the Town of Poetry towards the bottom left side of the map and zoom in to your location. The Town of Poetry properties are contained within the brown/gold lines. Selecting the round circle with the four squares and then selecting the tab that says “2021” may make the process a bit easier for users.

Use Instruction for Kaufman interactive map: Select “I agree” and proceed to the right-hand side of the page and select “City Limits” in the “Map Contents” section on the right-hand side of the page. Please note that Kaufman has not finished placing Poetry’s boundaries on the map so don’t be surprised if you see other town’s boundaries, in Kaufman County, but do not see the Town of Poetry. Find the Town of Poetry towards the upper center of the map just above Terrell and zoom into the desired location. Please note that Kaufman has placed The Town of Poetry boundaries on the map but they are very hard to see because they have yet to select a specific color for the lines so I would suggest selecting the round circle with the four squares (just above map contents section) and then selecting the “Firefly Imagery” tab. By doing this, the process is a bit easier for users. If you look closely, you will see a straight line that follows Poetry’s roads and runs about a football field width (300 -350 yards) from the center of the road. If your property is between this line and the road, you are in the Town of Poetry.
