Why am I running?

I fell in love with Poetry, in Fall 2002, enjoying good burger baskets at Jack's, along with good conversations with the locals. The welcoming community and peaceful surroundings caught my love, as it did many of you. I was fortunate to marry into a Poetry legacy spanning back to the 80's. We built our home and moved in January 2007. I believe this peaceful community still exists. I offer my experience, education and leadership skills to this community. I believe we can return to our peaceful community with teamwork, open dialogue and higher thinking. I wish to provide these things to represent and support all who live in Poetry.
